Plain Words for the People.

GENERAL AMNESTY IN THE

"LET US HAVE PEACE."

Mr. Willey's Farewell Address in the Convention, March 30, 1872. Having been in delicate health for some weeks, Mr. Willey asked leave of absence for the remainder of the session, which was reluctantly but unanimously granted. Whereupon he arose, and in his impressive manner, to an attentive audience, ad-

dressed the Convention as follows:

Mr. President: After a consultation
with my political friends and associates
in this body, I have their unanimous concurrence in offering the resolutions which
I shall presently send to the chair. Before
doing so, however, I beg to be indulged
in submitting a remark or two.

The authority of the United States
government is now restored and recogitzed in every State in the Union. Every
vestige of organized and armed resistance
to it has been destroyed; and from the
Lakes to the Gull—from the Atlantic to
the Pacific—its laws and its officers have dressed the Convention as follows:

he Pacific—its laws and its officers have unobstructed operation. The great fun-damental principles claimed to be necesdamental principles claimed to be because any to consolidate, secure and perpetuate its authority, have been incorporated in the national constitution, and are everywhere acknowledged as the supreme law of the land. This convention has inserted such an acknowledgment in the instru-ment which it is proposed to submit to the people of this State as their organic law. The organization of the State itself

on, the other for the destruction, of the Tono... It may well be considered whether it is not now time that the disabilities inposed by the Fourteenth Amendment should be removed. That amendment does not exclude the ballot, but only imposes the disability to hold offices upon certain classes. When the purity of the ballot is secure, majorities are sure to elect officers reflecting the views of the majori ty. I do not see the advantage or propri-ety of excluding men from office merely because they were before the rebellion of standing and character sufficient to be elected to positions requiring them to take oaths to support the Constitution, and admitting to eligibility those entertaining precisely the same views, but of less stand-

Influenced by such considerations, the popular branch of the national legislature, has on several occasions passed amnesty bills, less or more general in their terms and character; some of which are now on the calendar of the United States Senate, waiting consideration.

Mr. President, The past cannot be

recalled, it has gone into the province of history, by whose impartial record, all men, and all parties must ultimately abide. While we may not wisely reject the lesret our especial duties and resp relate to the present and to the future. But the interests of neither the present the future will be promoted by cher-

Any elevation of the heel drives the toes into clear quarters and correct desclere. any circuit of the need grives the toes into closer quarters, and corns develop to notify the individual there is not room enough at the point of the shee. Being too tight across the ball of the great toe joint, inflames it extensively; that is a bunion. If the pressure is not removed, which is the only permanent relief, a dis-tortion of the toe joint follows, and a perpetual crop of corns is as certain as seed time and harvest. A Good Cup of Tea. The known qualities which belong to tea, and the known qualities which it produces, fully justify its many admirers! It agreeably stimulates the faculties generally, thus rendering the exercise of all the functions both easier and pleasanter But this excitation, good as it is in itself, necessitates increased waste to pay for it, and we should thus, did things stop here, weaken in so far the system generally. This consequent weakening is what is called "reaction." But tea is always taken called "reaction." But tea is always taken along with food; and the appetite of persons in health urges them, in those circumstances, to take just so much food as is needful to make up for the increased tear and wear; and when this is done there is no reaction. So also is it with Dr. Gottlieb Fisch's Bitters; for the use of this medicine not only stimulates the system generally, but also in like proportion it stimulates and advances nutrition. bad taste in the REGULATOR!

LIVER REGULATOR is the remody best that has ever been discovered for these aliments. It acts militiy, effectually, and being a simple vegetable compound, can do no injury in any quantities that it may be taken. It is harmless in every way; it has been used for forty years, and hundreds of the good and great from all parts of the country will vouch for its virtues, viz:

Hon. Alexander H. Stephens, of Georgia.
Bishop Pierce, of Georgia.
Jao, Gill Shorter, Ex-Governor of Alabama.
Gen. John B. Gordon.
R. L. Mott, Columbus, Georgia.
